weedconcept

The weed control unit "weco M city" by weed concept is perfectly adapted to Hako's Citymaster 1650 – for the chemical-free removal of weeds with hot water. With additional benefits providing more application options also outside the weed removal season.

weco M city and Citymaster 1650

*Powerful team for ecological
weed control*

Sustainable. Eco-friendly. Multifunctional.

Mobile weed control solution

Reliable. Efficient. Flexible.

Weed management is one of the most important municipal tasks. Equipped with weco M city, Hako's Citymaster 1650 is the ideal solution when it comes to sustainable, environmentally friendly and economically efficient removal of weeds from public roads and squares. What's more, thanks to its compact dimensions and low total weight of only 3.5 t, the Citymaster 1650 can also work on footpaths. Typically Hako, this solution provides convincing multifunctional use: at the push of a button, the weed control unit becomes a professional high-pressure cleaner; another push of a button and the device can be used to water plants – all at one and the same job site. Moreover, the Citymaster 1650 can be quickly and easily equipped with a sweeping unit and used as a professional city sweeper.

weco M city	Weed control	High-pressure cleaning	Watering
Water flow	14 l/min	14 l/min	15 l/min
Water pressure at the lance	0.1 +/-bar	50 – 100 bar (infinitely adjustable)	
Water temperature	99 °C	50 – 100 °C (infinitely adjustable)	
Battery life	6 h – full working day	3 h – continuous operation	5 h – full working day
Heat output	95 kW		
Water tank capacity	850 + 150 litres (modularly expandable)		
Dimensions (L x W x H)	550 x 1,000 x 750 mm		
Empty weight incl. battery	450 kg machine unit + 100 kg water distribution		
Noise level	< 65 db		
System voltage	24 V DC		
Diesel consumption (for the heating element)	8.0 kg/h		
Diesel tank capacity	42 litres		

Your benefits at a glance:

- High-performance unit, precision-fitted and perfectly adapted to the Citymaster 1650 for weed control with hot water
- Long operating times thanks to the large 1,000-litre water tank and a 40-litre diesel tank
- Extremely flexible due to three different functions: weed removal, cleaning, watering
- Eco-friendly hybrid drive – the device can be driven by either the vehicle hydraulics or the battery of the weco unit
